The following is a description and estimated replacement evaluation of item(s) submitted for appraisal. This will be accomplished by researching comparable markets where such items can be found, checking against current trade catalogue product listings (where available) and current trade material price guides and researching the auction markets where applicable. The value was determined by systematic examination of the gems, metals or other materials and method and quality of construction by a graduate gemologist (GIA). Conclusions drawn are based upon subjective opinions of these qualities and other estimations. The estimation was accomplished using appropriate instruments and tests were conducted within limitations imposed by make-up of item. The appraisal should not be used as a definite guide in comparison shopping. Use of this appraisal in public advertising is forbidden. This appraisal is for value only and is not an offer to purchase. Jewelry Appraisals, Inc.
